

ECSR WRITE UP 10

DOGSO

Referee AND Assistant Referees need to deal with DOGSO, Denying an Obvious Goal Scoring Opportunity. These decisions are game critical and referees are failing to enforce the rule.

Many referees look for the excuse-there is a defender close by, the player is too far away etc.

You will see in these clips, that there should be a violation, and a red card issued. In one of the clips, you can see that the referee is quite a distance. He starts his run late on a counterattack, but the Assistant Referee needs to get involved and raise the flag for a foul and then have a discussion with the referee.
