

Quinnipiac vs LIU

[Video Clip](#)

Prevention

In this play, there are multiple fouls on the player in yellow. There is no advantage. After numerous fouls, the player in yellow retaliates and kicks an opponent. A melee occurs and the referee stops play and issues two red cards for violent behavior.

Referees make many decisions in the course of a game. Player safety is the number one job of the officiating crew. We cannot let reckless play continue. If the Referee had stopped the game for the previous fouls, this could have prevented the more egregious physicality.

IS THIS FAIR? Two teams were penalized with player suspensions due to the inaction of the Referee.
